SUMMARY

An entry level software developer, a procurement officer and a supply chain manager that can work independently with minimum supervision and committed to providing high quality service to every task allocated to me with focus on health, safety and environmental issues.

Professional, capable and motivated individual who consistently performs in challenging environments.

Looking to acquire a position that uses creativity along with practicality to create projects that are not only viable but also innovative and unique.

ACCOMPLISHMENTS

Supervision

Supervised and steered all operations that made the Company to be stable and ensure that there was proper management of company's resources.

Teamwork

Working together as a team to brainstorm challenges in the workplace to achieve the objectives of the firm

EXPERIENCE

Feb 2020 to Jan 2021: JIMSAM Co

MANAGER

- Inventory Management: Ensured the store is well-stocked with fresh and high-quality fruits. Monitored inventory levels, ordering supplies, and conducting regular checks to remove spoilt or expired products
- Sales and marketing: Developed and executed marketing strategies to boost sales.
- Compliance: Ensured compliance with health and safety regulations including food safety standard and managing licenses and permits.
- Financial Management: Managing the store's budget and financial performance, tracking expenses, ensuring pricing accuracy, and handling cash management including making deposits.
